Ufac

CODE OR DEPARTMENT

Subject name

Teaching unit I

Title of the teaching unit

Prof. Dr. Your Name

PART 1

Name of the first section

Slide title

Subtitle (repeated after `---`)

Text with **bold**, *italic*, **blue emphasis**, yellow highlight and underline.

→ Item with an arrow
→ Another item

- Item
  - Sub-item
    - Sub-sub-item

Definition

Box with a title (same as `#emph-box(title: [Definition])[...]`).

Slide title

Subtitle (repeated after `---`)

Box without title

> A quotation in a box.

$$x^2 - 3x + 2 = 0$$

Equation box:

$$x = \{2, 1\}$$

Slide title

Subtitle (repeated after `---`)

A list of quotation boxes

Another item

Another item
with 2 lines

Another item

Another item

Slide title

Subtitle (repeated after `---`)

Column with blue divider

Column 2

Col without divider

Column 2

Boxes with an icon

Tip

An icon before the title: the name of any `#icon` (`"tip"`, `"warning"`, …) or any content.

Homework

The icon is centered on the capitals of the title, and the badge keeps the same height.

Callouts

Caution! `x * y` with two lists is an error.

Tip. The up arrow recalls the last command.

Reminder. A **function** is a named block of code.

Note. Two versions of the program differ here.

Example. `len([1, 2, 3])` is 3.

Examples. `int` and `str`.

Code and its output

```python
def scale(grams, people, n=4):
    return grams * people / n
```

Python

```
375.0
```

Output

A table

Fish	Depth (m)	T (°C)
Cod	200	4
Tuna	50	18

Exercise 1.1 — An exercise

Statement. (Also `#exercise-slide(title: [Title])[...]`.)

Answer. The answer.

Example 1.1 — An example

See **Exercise 1.1**.

Solution: The solution.

Thank you!
